Brainstorm & idea prioritization

Use this template to brainstorm ideas and prioritize them. Brainstorming sessions are most effective when participants are encouraged to think out loud and share their ideas. This template provides a structured way to capture and organize ideas.

Before you collaborate

A list of all participants must be ready before the session. Make sure you have a list of all participants and their contact information.

Define your problem statement

What problem are you trying to solve? Please provide a clear and concise statement of the problem. This will be the focus of your brainstorming session.

Brainstorm

Brainstorming is a process of generating ideas. It is a collaborative effort where participants share their ideas and build on each other's. This step involves a grid where ideas are captured.

Group ideas

Group ideas into categories. This step involves a grid where ideas are organized into groups.

Prioritize

Prioritize ideas based on their importance and feasibility. This step involves a grid where ideas are ranked.

After you collaborate

After the session, you should have a list of ideas. This step involves a grid where ideas are organized into groups.

Expenses Item	Amount	Currency (16,2)
	Expense Item	Number Auto Number
	Travel Approval	Master-Detail (Travel Approval)

3.2 ACTIVITY AND SCREENSHORT

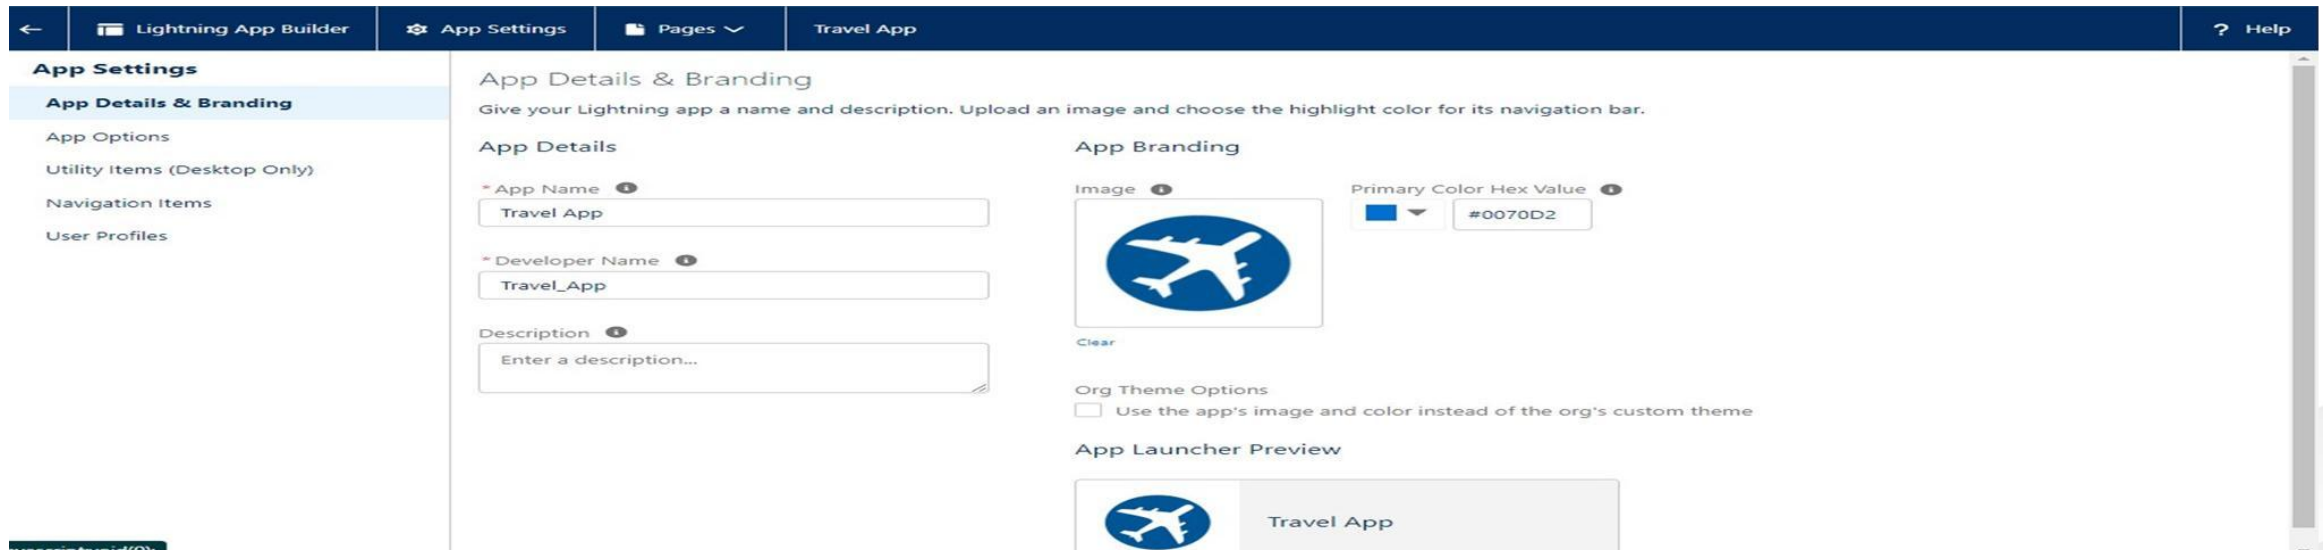

Milestone 1 - Create Salesforce Org :

We have created the developer account and login for Salesforce account.

Milestone 2 - Creating the Application :

We have created the Travel Application. For that we have used the lightning experience app manager.

The screenshot displays the Lightning App Builder interface. The top navigation bar includes a back arrow, 'Lightning App Builder', 'App Settings' (selected), 'Pages', and 'Travel App'. A 'Help' icon is in the top right. The left sidebar, titled 'App Settings', lists 'App Details & Branding' (selected), 'App Options', 'Utility Items (Desktop Only)', 'Navigation Items', and 'User Profiles'. The main content area is titled 'App Details & Branding' and includes the instruction: 'Give your Lightning app a name and description. Upload an image and choose the highlight color for its navigation bar.' The 'App Details' section contains three fields: 'App Name' (filled with 'Travel App'), 'Developer Name' (filled with 'Travel_App'), and 'Description' (placeholder 'Enter a description...'). The 'App Branding' section features an 'Image' field with a blue airplane icon, a 'Clear' link, and a 'Primary Color Hex Value' field with a blue color picker and the value '#0070D2'. Below this is the 'Org Theme Options' section with a checkbox 'Use the app's image and color instead of the org's custom theme' which is currently unchecked. At the bottom is the 'App Launcher Preview' section, showing a preview of the app icon and the text 'Travel App'.

Milestone 3 - Object :

In this Travel Approval application we need to create three objects :

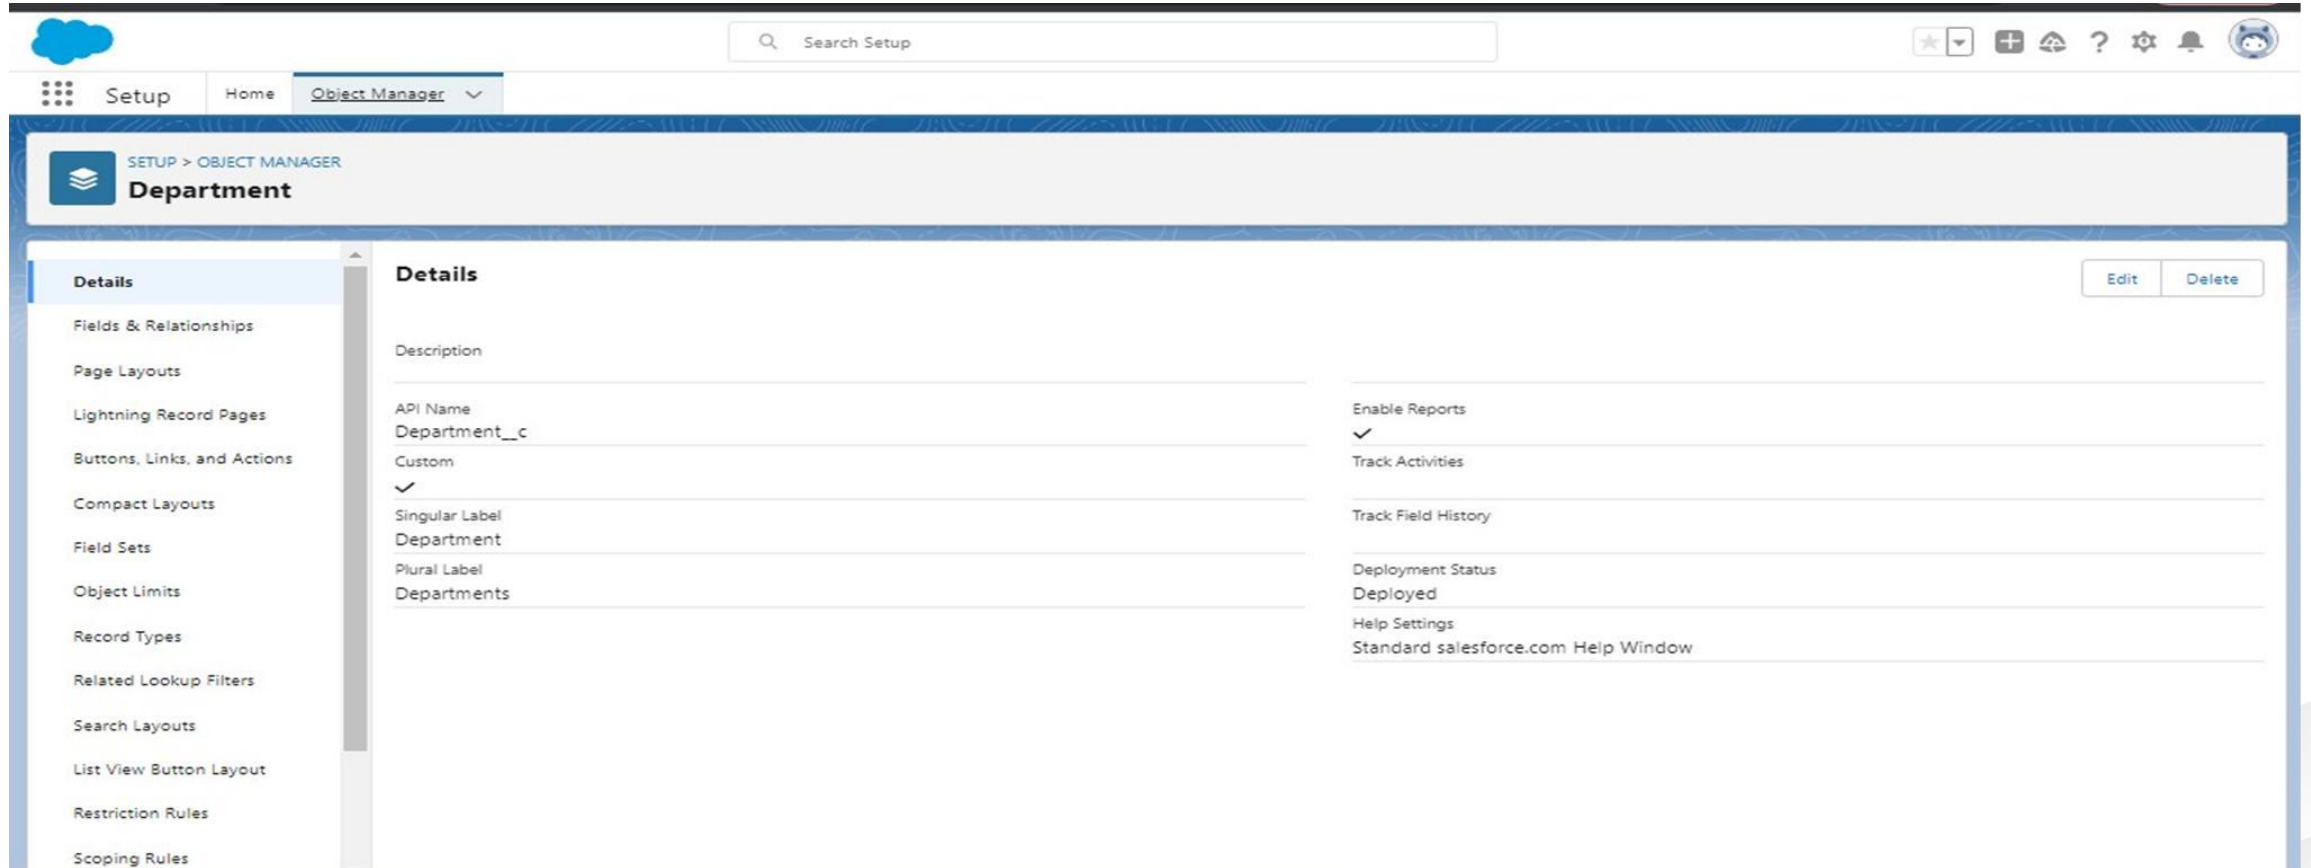

Department

Travel Approval

Expenses Item

Department

The image shows the Salesforce Setup interface for the Department object. The top navigation bar includes the Salesforce logo, a search bar labeled "Search Setup", and several utility icons. Below the navigation bar, the "Setup" menu is open, showing "Home" and "Object Manager" as options. The "Object Manager" page is selected, displaying the "Department" object details. The left sidebar contains a list of configuration options for the Department object, including "Details", "Fields & Relationships", "Page Layouts", "Lightning Record Pages", "Buttons, Links, and Actions", "Compact Layouts", "Field Sets", "Object Limits", "Record Types", "Related Lookup Filters", "Search Layouts", "List View Button Layout", "Restriction Rules", and "Scoping Rules". The main content area shows the "Details" section for the Department object, with fields for Description, API Name (Department__c), Custom (checked), Singular Label (Department), Plural Label (Departments), Enable Reports (checked), Track Activities, Track Field History, Deployment Status (Deployed), and Help Settings (Standard salesforce.com Help Window). "Edit" and "Delete" buttons are visible in the top right corner of the details section.

Milestone 4 - Tab :

Tab in Salesforce help users to view the information at a glance. It displays the data of objects and other web content in the application.

The screenshot shows the Salesforce Setup interface for the 'Custom Tabs' section. The left sidebar contains navigation links for 'Setup', 'Home', and 'Object Manager'. The main content area is titled 'Custom Tabs' and includes a search bar, a 'Help for this Page' link, and a description of custom tabs. Below the description, there are five sections: 'Custom Object Tabs', 'Web Tabs', 'Visualforce Tabs', 'Lightning Component Tabs', and 'Lightning Page Tabs'. Each section has a 'New' button and a 'What Is This?' link. The 'Custom Object Tabs' section is expanded, showing a table with columns for 'Action', 'Label', 'Tab Style', and 'Description'. The table lists three tabs: 'Departments', 'Expense Items', and 'Travel Approvals'. The 'Web Tabs' section shows 'No Web Tabs have been defined'. The 'Visualforce Tabs' section shows 'No Visualforce Tabs have been defined'. The 'Lightning Component Tabs' section shows 'No Lightning component tabs have been defined'. The 'Lightning Page Tabs' section shows 'No Lightning Page Tabs have been defined'.

SETUP Tabs

Custom Tabs

You can create new custom tabs to extend Salesforce functionality or to build new application functionality.

Custom Object tabs look and behave like the standard tabs provided with Salesforce. Web tabs allow you to embed external web applications and content within the Salesforce window. Visualforce tabs allow you to embed Visualforce pages. Lightning Component tabs allow you to add Lightning components to the navigation menu in Lightning Experience and the mobile app. Lightning Page tabs allow you to add Lightning Pages to Lightning Experience and the mobile app.

Milestone 5 - Create-Fields and Relationships :

Fields in Salesforce represents about the columns in relational databases mean. It can store data values which are required for a particular object in a record.

Department

The screenshot displays the Salesforce Setup interface for the 'Department' object. The top navigation bar includes the Salesforce logo, a 'Search Setup' field, and various utility icons. The left sidebar shows the 'Setup' menu with 'Object Manager' selected. The main content area is titled 'SETUP > OBJECT MANAGER Department' and features a 'Fields & Relationships' section. This section contains a table with 5 items, sorted by Field Label. The table columns are FIELD LABEL, FIELD NAME, DATA TYPE, CONTROLLING FIELD, and INDEXED. The rows list fields: Created By, Department code, Department Name, Last Modified By, and Owner. A 'Quick Find' search bar is located in the top right of the table area.

Last Modified By	LastModifiedById	Lookup(User)		
Travel Approval	Travel_Approval__c	Master-Detail(Travel Approval)		✓

Milestone 6 - Import Department :

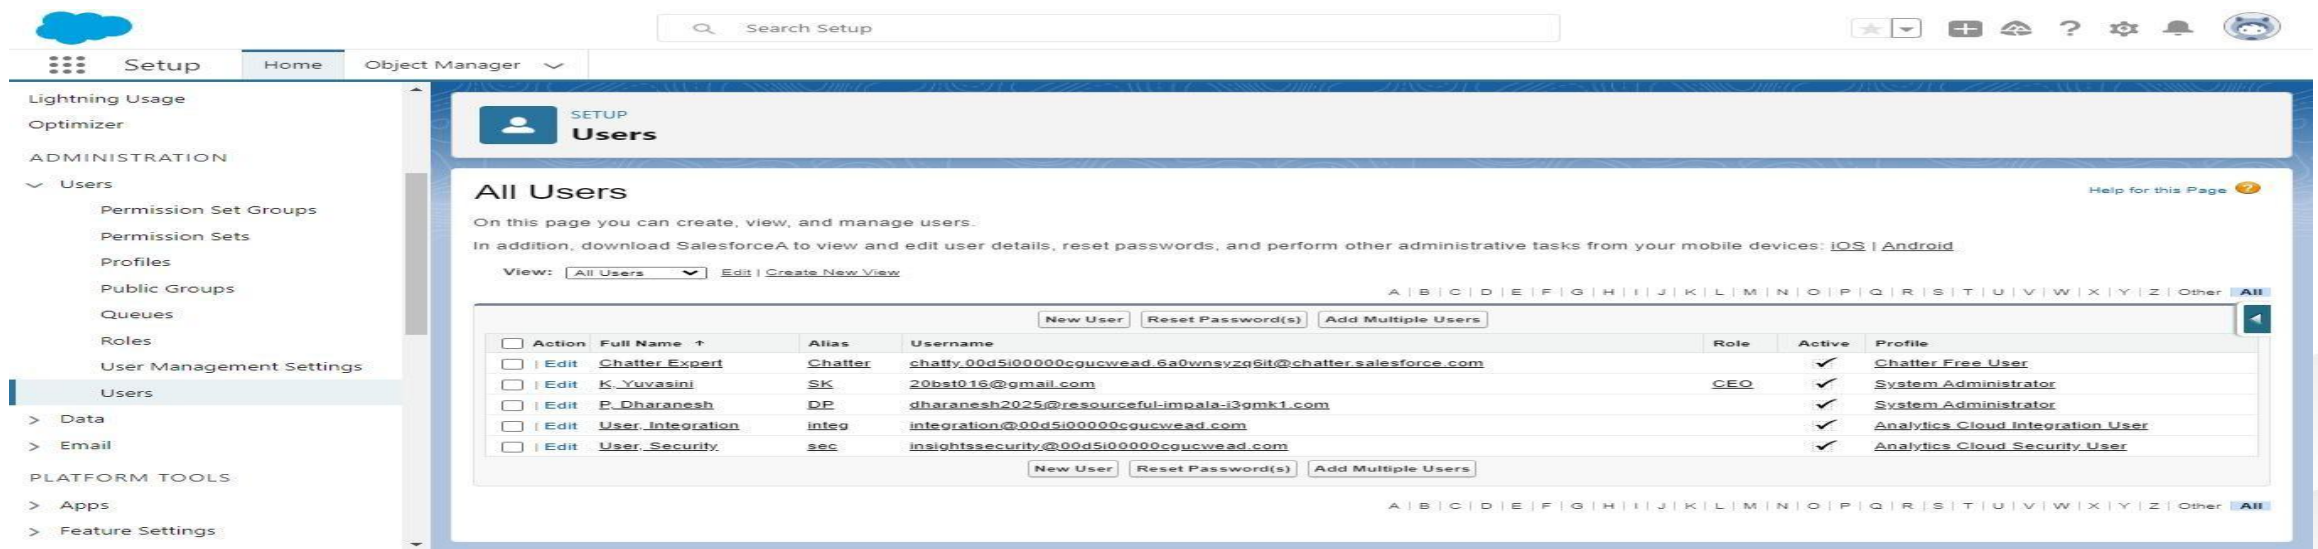

The screenshot displays the Salesforce Setup interface. The left sidebar shows the navigation menu with 'Setup' selected, and 'Import' highlighted under 'Translation Workbench'. The main content area is titled 'Bulk Data Load Jobs' and shows details for a specific job: 'Bulk Data Load Job 7505i00000Gk2Sx'. Below the job title, there is a 'View the details of a bulk data load job.' message and a 'Back to List: Bulk Data Load Jobs' link. A 'Bulk Data Load Job Detail' table is displayed, showing various metrics for the job, including Job ID, Submitted By, Start Time, End Time, Time to Complete, Object, External ID Field, Content Type, Concurrency Mode, Job Type, Operation, Queued Batches, In Progress Batches, Completed Batches, Failed Batches, Progress, Records Processed, Records Failed, Status, and Closed. The job is currently in a 'Closed' status.

Bulk Data Load Job Detail

Field	Value	Field	Value	Field	Value
Job ID	7505i00000Gk2Sx	Job Type	Bulk V1	Status	Closed
Submitted By	Dharanesh P	Operation	Insert	Total Processing Time (ms)	154
Start Time	21/04/2023, 1:38 pm IST	Queued Batches	0	API Active Processing Time (ms)	113
End Time	21/04/2023, 1:38 pm IST	In Progress Batches	0	Apex Processing Time (ms)	0
Time to Complete (hh:mm:ss)	00:00	Completed Batches	1		
Object	Department	Failed Batches	0		
External ID Field		Progress	100%		
Content Type	CSV	Records Processed	16		
Concurrency Mode	Parallel	Records Failed	0		

Milestone 7 - Customize User Interspace :

In this Milestone we have setup the users, customizing the page layout.

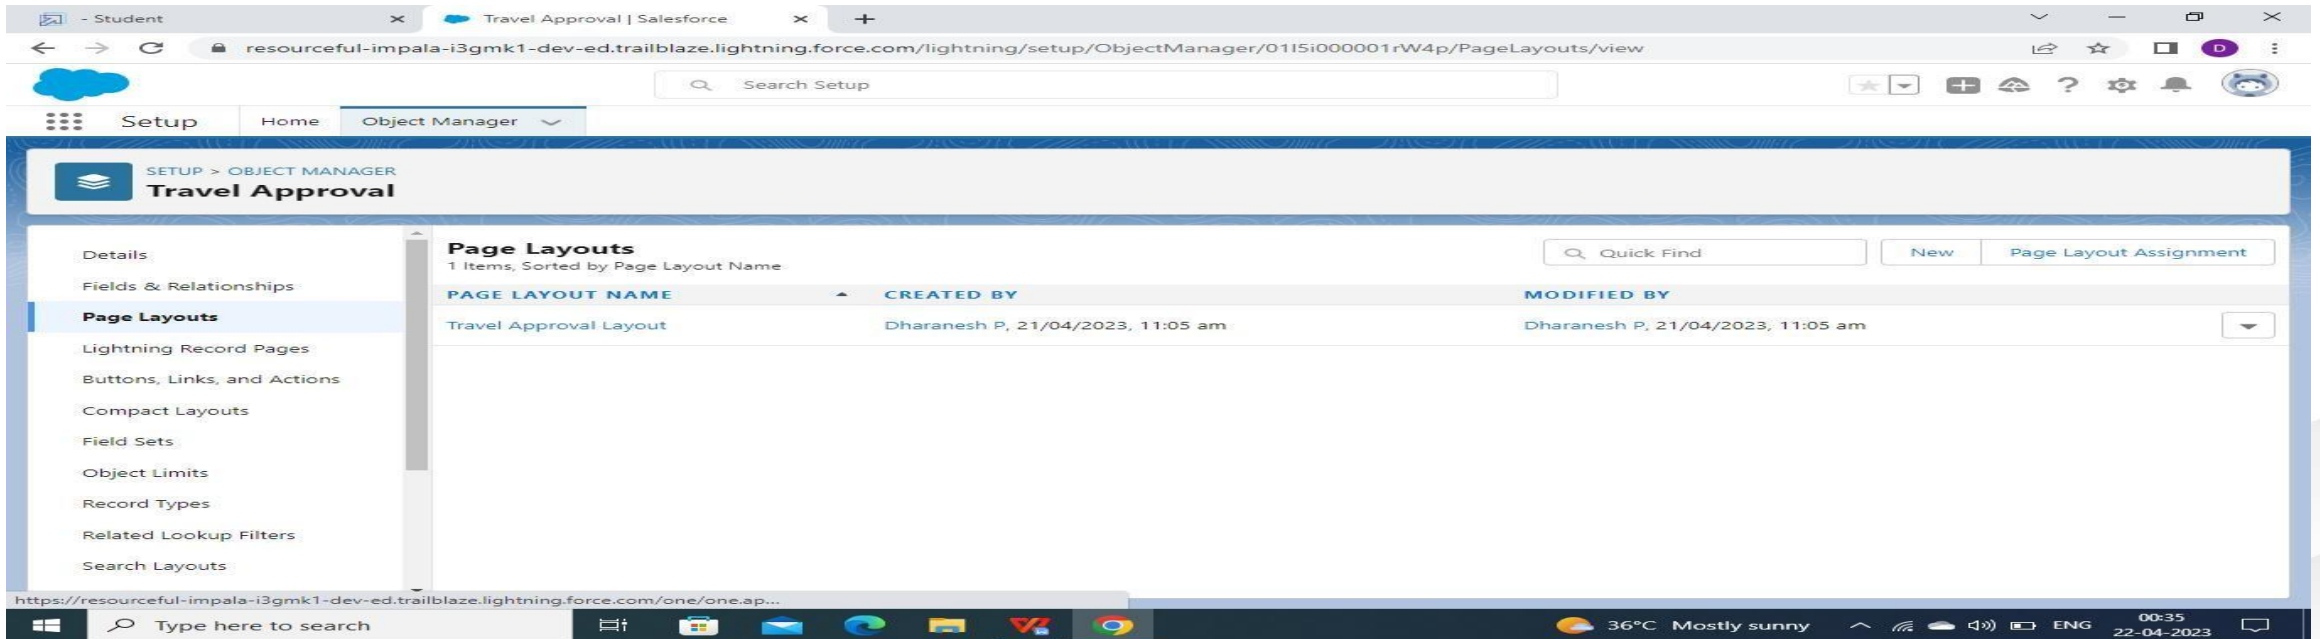

The screenshot shows the Salesforce Setup interface for managing users. The left sidebar contains navigation links for Setup, Home, and Object Manager. The main content area is titled 'Users' and includes a search bar, a 'View: All Users' dropdown, and a table of users. The table has columns for Action, Full Name, Alias, Username, Role, Active, and Profile. The table lists five users: Chatter Expert, K. Yuvashini, P. Dharanesh, User Integration, and User Security. The bottom of the page features a decorative image of a group of people holding hands.

Action	Full Name	Alias	Username	Role	Active	Profile
<input type="checkbox"/> Edit	Chatter Expert	Chatter	chatty.00d5i00000cgucwead.6a0wnsvzg6it@chatter.salesforce.com		✓	Chatter Free User

<input type="checkbox"/> Edit	User Security	sec	insightssecurity@00d5i00000cgucwead.com		✓	Analytics Cloud Security User

Milestone 8 - Use Customization :

In this Milestone we have to customized Travel Approval Object Page Layout.

The screenshot displays the Salesforce Setup interface for the 'Travel Approval' object. The left sidebar shows the navigation menu with 'Page Layouts' selected. The main content area shows a table of page layouts for 'Travel Approval'. The table has columns for 'PAGE LAYOUT NAME', 'CREATED BY', and 'MODIFIED BY'. There is one entry: 'Travel Approval Layout', created by 'Dharanesh P' on '21/04/2023, 11:05 am' and modified by the same user at the same time. The interface includes a search bar at the top, a 'Quick Find' button, and a 'Page Layout Assignment' button. The bottom of the screen shows the Windows taskbar with various application icons and the system clock.

PAGE LAYOUT NAME	CREATED BY	MODIFIED BY
Travel Approval Layout	Dharanesh P, 21/04/2023, 11:05 am	Dharanesh P, 21/04/2023, 11:05 am

5. Advantages & Disadvantages :

Advantages :

- 1) New experience.
- 2) Gain my knowledge.
- 3) Quick service.

Disadvantages :

- 1) It will be time consuming.
- 2) Team coordination will it cause in convenient.

6. APPLICATIONS :

The Travel Support System is a small sample application for Natural ONE. As a sample application, its focus is to show Natural ONE functionality rather than being a full-fledged travel support application.

The Travel Support System (TSS) allows us to request and approve business trips. Flights, hotels and even more external information such as cell phone expenses or car rentals can be entered with the trip request. For the destination, weather information can be queried. A manager can do both, request own trips as well as approve trips that have been requested by employees. After the manager has approved single or multiple requests, the manager can print an itinerary or receive the itinerary as a PDF file.

7. CONCLUSION :

Travel Management simplifies the management process in traveling. Fast processing and immediate results with high security. Minimizing women effort and cost efficient databases. Navigation through the site is easy. It becomes increasingly popular destinations in their own right.

8. FUTURE SCOPE :

It is clear that the online travel business is a booming industry and will continue to be so. Rising to the occasion, even small travel agency owners are also looking to go online. For them, an online travel portal can be an ideal fit.
